

Energy savings and equipment upgrades for QSRs

About Budderfly

Budderfly is the premier energy management partner for QSRs. A one-stop shop for energy management and equipment upgrades, Budderfly provides significant savings on your energy costs and improves your business with zero upfront investment. We install, monitor, and manage a combination of energy-efficient equipment upgrades, patented technologies, and proprietary energy software at no cost to franchise owners. Locations, including new builds and remodels, benefit with lower energy bills, a reduced carbon footprint, and more reliable operations.

What restaurants get with Budderfly

Guaranteed energy savings.

Budderfly provides QSRs with high-efficiency equipment, including HVAC, LED lighting, refrigeration controls and solar panels, at no upfront cost to owners. Our innovative smart-metering devices measure energy usage at each point of consumption to help optimize and reduce energy spend.

Ease of management.

Budderfly's fully outsourced model makes energy savings effortless. Our patented billing system streamlines utility bills into one monthly statement, with complete transparency on your consumption, savings, and carbon footprint reduction.

Operational control.

Our customer portal gives valuable insights into how your locations operate, sustainability data, and proactive alerting for issue management in one place.

Benefits

NO out-of-pocket costs for standard install

Up to 5% savings from day one

ONE streamlined utility bill

Carbon footprint/energy usage reduced by up to **30%**

A **BETTER** guest and employee experience

How has working with Budderfly helped you?

“Our relationship with Budderfly allows us to free up funds and time from store maintenance and put them into more productive and strategic projects and operations.”

-Robert Cammarano – Franchise Owner
